## TO WHOM IT MAY CONCERN – MR GERMAN HARVEY ALFEREZ

This letter is written in support of Mr Alferez's application for admission to a PhD program in Computer Science and for financial support. I knew Mr Harvey during his career (2.5 years) at our University in the capacity as a teacher, a systems analyst and programmer.

Mr Alferez is a competent programmer and skilled in technical matters. He is diligent and hard working as evidenced by his ability to complete a Masters degree from Assumption University, Thailand, while completing his work requirements with us with enthusiasm and with our complete satisfaction. Besides this he is imaginative in his approach to his science and has been able to publish a number of papers in academic journals as evidence of this ability.

I recommend him to you as a suitable doctoral candidate which any institution would be proud to have as its graduate. You will find him a pleasant person who can work well with others. We have appointed him as an adjunct research associate.

Sincerely,

Warren A. Shipton, BSc Agr, PhD, MEd, FASM  
President
